About CEMR

The Council of European Municipalities and Regions (CEMR) is the broadest organisation of local and regional governments in Europe. Its members are over 60 national associations of municipalities and regions from 40 European countries. Together these associations represent some 100,000 local and regional governments.

CEMR's objectives are twofold: to influence European legislation on behalf of local and regional authorities and to provide a platform for exchange between its member associations and their elected officials and experts.

Moreover, CEMR is the European section of United Cities and Local Governments (UCLG), the worldwide organisation of local government.
