Awareness raising on a Sustainable urbanisation stand-alone goal

As Mayor of **[name of town]** and President of **[name of your association]**, I would like to raise awareness on the need for the Post-2015 agenda and the set of Sustainable Development Goals to entail a stand-alone goal on sustainable urbanisation

An urban goal would not only be directed at cities but would entail a territorial approach, including regional and rural-urban linkages.

Local and regional authorities have been identified as crucial actors for the Rio+20's implementation and achievement of the original MDGs. They must be recognized an important role in the definition of the new global agenda.

I support the initiative of the *World Organization of United Cities and Local Governments, the United Nations Sustainable Solutions Network* and its partners to convey this message to the International Community.
