

Short report

Event Afccre

Place – Romainville (Est Ensemble), 16 March 2018

Dialogue on EU Cohesion Policy, March 16th 2018, Romainville – France

Description of the discussion during the event:

On Friday, March 16th 2018, the first French citizen's dialogue on EU Cohesion Policy took place at Romainville, at the invitation of Est Ensemble Grand Paris.

Christine Revault d'Allonnes Bonnefoy European Deputy, Philippe Kapriélian, Programme Manager (DG Regio), and Régine Leduc, Director of European Affairs, Regional Council of Ile-de-France were present at the discussion.

This event for citizens and territory's stakeholders aimed to exchange about European funds inflows, especially in Ile-de-France and Est Ensemble territory.

Gilles Robel, councillor of European funding – Est Ensemble, recalled the role of Est Ensemble in the implementation of European funding and the great interest that this instrument offers. Serge Planchenault and Erwan Ruty, projects directors, recalled the value share of the European funding for their projects. They also underscored the beneficiaries needs in terms of assistance.

Concrete examples supported by Europe were cited and show the necessary diversity of Cohesion Policy interventions on urban territories.

The debate brought into focus the cohesion policy input in urban territories.

All participants were agreed that the decrease of Cohesion policy funding would be problematic and simplifying the procedure for accessing EU funds is essential.

Two key messages that emerged from the meeting were:

- 1) the need to keep European cohesion policy covering all territories and their diversity
- 2) focusing programmes on need of the economic, institutional and social players.

Number of participants: 43 (29 signatures)

Type of participants: local authorities (55%), associations (16%), European as well as national Institutions (23%), project directors (6%).

- 16 local authorities
- 5 associations
- 6 European as well as national Institutions
- 2 project directors
